SUMMARY

A BSc. Informatics and Computer Science student with hands-on experience building web applications using React, TypeScript, and Supabase. I have a strong interest in computer networks and cybersecurity, supported by Cisco training. Comfortable working with Linux, Git, and collaborative projects, and focused on building practical, real-world systems.

EXPERIENCE

Collaborative Software Engineer

Finesy Enterprise - Hackeric Labs

April 2026 - Present, Nairobi

- Contributing to engineering-focused projects within a collaborative Research and Development environment.
- Supporting the design, development and testing of innovative technology solutions.
- Contributing in the research of the advancement of technology in the modern age.

Teaching Assistant

Entarara Mixed Secondary School

January 2026 - March 2026, Oloitokitok, Kenya

- Assisted in teaching Computer Studies, Mathematics and Life Skills across different class levels.
- Supported students during lessons and practical sessions, ensuring understanding of core concepts.
- Helped prepare lesson materials, exercises, and assessments.
- Provided general support to teaching staff and assisted in administrative and classroom activities.
- Developed strong communication, patience, and teamwork skills in a structured learning environment.

PROJECT

AeroSecure

June 2026 - Present

- An airport based security system that monitors network activity.
- Built and developed using Python FastApi.
- Implemented Role-based and secure system access.

SchoolBloom

March 2026 - Present

- Designed and developed a school management system tailored to the Kenyan CBE curriculum.
- Built and developed using React, Typescript, Supabase.
- Implemented key school functionalities in the system; from assessments, to attendance, to timetabling, to finances.
- The system implements Role-based and secure access to all users.
- Real time learner and school updates on all user profiles.

FedhaSmart

Strathmore University • fedhasmart.vercel.app • August 2025 - November 2025

- Designed and built FedhaSmart, a web application for personal finance tracking.
- Implemented income categorization, expense tracking, and savings goal management.
- Developed the frontend using React, TypeScript, shadcn/ui, and Tailwind CSS.
- Integrated Supabase for authentication and database management.
- Applied Agile software engineering methodology during development.

EDUCATION

Bachelor of Science in Informatics and Computer Science

Strathmore University • Nairobi, Kenya • 2024 - 2028 (Expected)

- Member, Strathmore Computing and Engineering Student Association
- Member, Strathmore Cybersecurity Club
- Member, IEEE Strathmore University Student Branch.
- Student Council - Academic Sub-committee (16th and 17th)

Kenya Certificate of Secondary Education

Oololaiser High School • Ngong Hills, Kenya • 2020 - 2023

- Member Science and Technology club
 - Member Drama club
 - Student council- Dining Captain 2021 2023.
-

CERTIFICATIONS

Introduction to CyberSecurity

Cisco Networking Academy • 2025

- Covered cybersecurity fundamentals, threats, network security, and best practices.
-

SKILLS

Programming: Java, JavaScript, Python, C++, Arduino

Web: HTML, CSS, React, TypeScript, Tailwind CSS

Databases: Supabase (PostgreSQL fundamentals), MariaDB, MySQL

Tools: Git, GitHub, Linux, Docker

Networking & Security: Networking fundamentals, cybersecurity basics

Soft Skills: Communication, teamwork, time management
